INTRODUCTION

Welcome to the BMT Values Programme, a groundbreaking initiative within Black Men Teach dedicated to revolutionising the educational experience for black boys. Beyond the confines of traditional academics, our program is designed to cultivate a holistic environment. Through mentorship, positive masculinity, and the vibrant celebration of 'Black Boy Joy,' we not only challenge stereotypes, but actively celebrate the remarkable successes of black boys in both education and society.

Embark on a transformative journey with us as we explore key modules focusing on identity, community, and personal development. The BMT Values Programme transcends being a mere initiative; it is a dynamic movement committed to inspiring enduring change. By empowering black boys to envision and achieve a future filled with limitless possibilities, we are redefining narratives and shaping a new era in education.

PROBLEM STATEMENT

Underachievement in Black pupils, especially black-Caribbean boys is a growing issue. Some of the reasons have been categorised by Dr Feyisa Demi (2018)

Lack of role models

Lack of targeted support

Negative Peer pressure

Lack of parental aspiration and low expectations

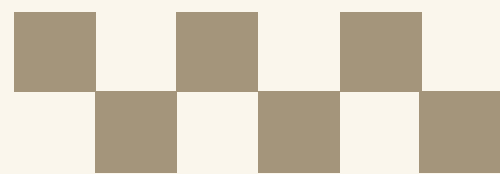

Teacher's low expectations

Curriculum barriers and relevance

Research states the following:

- Black pupils are more punitively disciplined (DfE, 2006)
- The media portrayal of black men as threatening is partly blame for the treatment of black boys (Cushion, Moore & Jewell - 2012)
- Black males are labelled as hypermasculine (Joseph-Salisbury - 2019)

An holistic approach is needed to support our black boys.

THE BMT SOLUTION

THE VALUES PROGRAMME

BMT Values Programme is more than just an educational initiative; it is a movement that champions the holistic development of black boys. By fostering a supportive community and addressing multifaceted challenges, we aspire to equip black boys with the tools they need to not only succeed academically but to flourish in all aspects of their lives."
